PROFESSIONAL SUMMARY

Computer Science undergraduate with hands-on experience building an AI-based student attendance system using Python, OpenCV, Flask, and SQLite. Strong foundation in programming, data structures, databases, operating systems, and computer networks, with a growing focus on AI/ML development.

EDUCATION

Degree / Certificate	Year	Institute	CGPA / %
B.Tech – Computer Science & Engineering	**2024–2028**	Vignan Foundation of Science, Technology and Research (Deemed University)	7.00
Intermediate	**2022–2023**	Board of Intermediate Education, Govt. of Telangana	75%
SSC	**2021**	SSC Board, Govt. of Telangana	92%

PROJECTS

AI Student Attendance System | June 2026

- Developed an AI-based attendance system with Python and OpenCV to automate attendance management.
- Implemented real-time face detection and facial recognition using webcam input.
- Built a user-friendly workflow for student registration, attendance monitoring, and report generation.
- Integrated SQLite for structured and secure attendance-record storage.
- Improved efficiency and reduced manual attendance errors through automation.
- Technologies: Python, OpenCV, SQLite, HTML/CSS, Flask, Machine Learning.

TECHNICAL SKILLS

Programming: C, Python
AI / Development: OpenCV, Flask, Machine Learning, HTML/CSS
Tools: Jupyter, Visual Studio, Figma
Databases: SQLite
Operating Systems: Windows, Linux, Android

RELEVANT COURSEWORK

Data Structures & Algorithms • Object-Oriented Programming • Database Management Systems • Operating Systems • Computer Organization & Architecture • Computer Networks & Security • Software Engineering • Python Programming • Statistical Methods • Discrete Mathematics • Compiler Design • Computer Graphics & Multimedia
